## CAREER OBJECTIVE

- Enthusiastic and creative frontend developer with a strong foundation in web development and a passion for creating engaging user experiences. Proficient in HTML, CSS, and JavaScript, with a focus on responsive design and modern UI/UX principles. Eager to contribute my skills to a dynamic team and learn from real-time use cases.

## WORK EXPERIENCE WITH PROJECTS

### SLA 3d-Printing

- It is a Rapid prototyping and creates the 3rd objects with Good accurate, Speed and Efficiency.

### Capstone Project

- Developed a blogging platform where users can write, edit, and publish posts. Implemented features like dynamic comment sections and the ability to categorize posts with the help of **Html5**, **Css**, **Javascript** and **Node.js** and got a hands on Experience through Cynohub Institute.

### Word counter application

- By using all key( functions, attributes, tags) of all HTML5, CSS3, javascript, tailwind css and Node.js. DOM fundamentals and Add Event Listeners Features were being used in these projects.

### Restaurant website

- Created a modern Restaurant website with the Recipes available in the Restaurant. I developed the program of HTML5, CSS, javascript program from my end on code editor in VS Code. I had done complete CSS styling with help of properties of CSS Grid, Flexbox and other more advanced HTML tags were used. Leads to look more fancy of styling properties have been used in our project.

## ACCOMPLISHMENTS

- I have obtained a strong proficiency in **DOM** manipulation and Handling on Event listeners in JavaScript.
- Created a **Interactive UI Development**, a dynamic form validation system using JavaScript, enhancing user experience by providing real-time feedback and reducing errors in form submissions.
- Implemented **Responsive Design**, which is a navigation menu using JavaScript, ensuring seamless usability across various screen sizes and devices.
- I built innovative websites and more debugging skills acquired through Cynohub Institute.

## OTHER HIGHLIGHTS

- I have got secured 76 percent at cognitive and 73 percent at python coding round in TCS nqt paid test.

- Successfully completed HTML, CSS3 certifications in web Technologies under Great Learning Academy.
- Certification of data science foundation in Great Learning Academy.

## CODING PLATFORMS

### Netlify

Worked and deployed my projects in my respective account where I got access to own my website. I dropped down multiple websites some of them: To-Do List application, electronic devices template project over there. tab=repositories

### Visual Studio Code

Proficient in Visual Studio Code for efficient and collaborative coding, enhancing development workflow also. Skilled in leveraging Visual Studio Code's extensions and features for streamlined software development.

## SKILLS

### Languages

Javascript Python HTML5

### Technologies and framework

Node.js CSS3 PHP React.js  
MongoDB Wordpress tailwind- css  
OOPS concepts

### Tools

Git VSCode Console Tool
